## Office Policies

All visits are by appointment, and our policy is to book ample time for your visit. We do our best to minimize patient waiting time. Should you need to cancel or reschedule an appointment, we require a minimum one business day advance notice; otherwise you will be responsible for the visit fee and any necessary billing and/or collection fees.

So that we may provide optimum care, we request that you complete a **'New Patient Registration Packet'** prior to your visit with our office. You may do this by downloading the registration forms from [www.DoctorEnzer.com](http://www.DoctorEnzer.com), requesting them by e-mail, postal mail, or coming into the office 15 minutes prior to your appointment.

## Directions

### DRIVING NORTH ON I-95

Take exit 18 for Thurbers Ave. Bear left onto Thurbers Ave. and turn right at the first light onto Eddy St. After 0.8 miles turn left onto Dudley St. Free parking is in our gated lot on left, directly across from Women & Infants Hospital. We are on the first floor in Suite 104.

### DRIVING SOUTH ON I-95

Take exit 19 for Eddy Street immediately after the split for I-195. Bear left on the exit towards Eddy St. Merge right onto Eddy St., and then turn right at the 1st light onto Dudley St. Continue ¼ mile on Dudley St. Free parking is in our gated lot on left, directly across from Women & Infants Hospital. We are on the first floor in Suite 104.

### DRIVING WEST ON I-195

Merge onto I-95 South and take exit 1B (the first exit on the right) for Eddy St. At the light turn right onto Eddy St. At the next light take a left onto Dudley St. Continue on Dudley St. for ¼ mile. Free parking is in our gated lot on left, directly across from Women & Infants Hospital. We are on the first floor in Suite 104.

## Cosmetic, Laser, and Oculofacial Plastic Surgery

*Yoash R. Enzer, MD, FACS*  
*Ashley L. Wright, FNP*

**Dr. Yoash Enzer** is an Associate Clinical Professor at Brown University, board certified, and a member of ASOPRS & many other prestigious organizations. He has operated a private practice devoted to Cosmetic, Laser, and Reconstructive Oculofacial Plastic Surgery for over 30 years!

**Eyelid Surgery**—treating concerns such as heavy lids, drooping brows, or bags under the eyes to give a more rested and youthful appearance to the eyes.

**Non-Surgical Injectables**—safe and effective anti-aging procedures that deliver amazing results in a quick office visit, avoiding the need for cosmetic surgery.

**Laser Skin Resurfacing**—rejuvenate and keep your skin looking as young as you feel. Whether you are looking to target specific skin imperfections or get an overall fresh new look, we have a laser that will suit your needs.

**FaSuLa Scar Removal**— a revolutionary approach that removes scars from the inside out. FaSuLa stands for Fat Transfer-Subcision-Laser— three mainstay cosmetic procedures that when combined produce extraordinary results.

**Earlobe Repair**— a customized surgical technique to reconstruct a torn or split earlobe. To maximize healing, re-piercing can be performed three months later.

**Facial Mole Removal**— using a ultra high radiofrequency device that precisely evaporates the growth down to the level of the surrounding skin. There is no scalpel involved, no bleeding, no damage to the surrounding skin, and minimal if any pain.

## Cosmetic Services

Enzer & Associates pride ourselves on delivering natural-looking outcomes because that is how you will look and feel your best. We take the time to listen and consult with you, formulate a treatment plan, and keep your comfortable during your treatment. We offer the following cosmetic procedures:

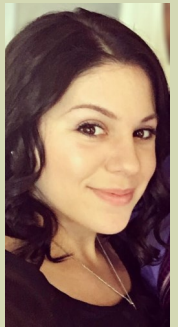

- Botox®, Dysport®, Jeuveau®, and other neuro-modulators
- Carbon dioxide and Fraxel® laser to smooth wrinkles and eliminate sun damage
- Cosmetic skin laser services for wrinkles, spider veins, tattoos, and brown spots
- Earlobe repair
- Eyelid surgeries, blepharoplasty, and forehead lifts
- Eyeliner micropigmentation
- Fat transfer
- Fillers: Juvéderm®, Voluma®, Volbella®, Volture®, Restylane®, Silk®, Refyne®, Defyne®, Kysse®, Radiesse®, Sculptra®
- Mid-face (cheek) lifts
- Neck Liposuction and Kybella®
- Personalized skin care regimen
- Removal of undesirable skin growths
- Scar revision surgery (FaSuLa)
- Sclerotherapy for spider veins
- Thread lifts: Silhouette Instalift™

## Medical Services

Reconstructive procedures are aimed at restoring normal function to facial structures affected by trauma, aging, or other disease processes. As an oculofacial surgeon, Dr. Enzer has extra specialized training to manage problems around the eyes and face. The following is a list of the most common conditions Dr. Enzer manages:

- Eyelid malpositions (ptosis, ectropion, and entropion)
- Eyelid and facial skin cancer reconstruction
- Facial and eyelid paralysis
- Facial and eyelid spasms

**Ashley Wright, FNP** specializes in Critical Care and Trauma Nurse specialties, and trained with Dr. Enzer in aesthetic cosmetic procedures and lasers. She continues to attend multiple educational conferences as to ensure her patients receive the most innovative and safest care possible.

**Non-Surgical Injectables**—Botox®, Jeuveau®, Dysport®, Restylane® and Juvéderm® facial filler, and Kybella® are all available options.

**LightSheer® laser hair removal**— a non-invasive procedure designed to reduce body hair. It works by sending laser energy to hair follicles with the marked dramatic reduction or elimination of hair in the treated area.

**Fraxel®**— a non-surgical treatment improving tone, texture and radiance for aging, sun-damaged or scarred skin. Fraxel® is for people who want to look younger without dramatic changes or extended downtime.

**Epionce® Peel System** (medical-grade)— an incredibly effective way to exfoliate skin and encourage fresh, healthy cells to rise up. This peel features malic acid, salicylic acid and signature botanical ingredients. Ashley will be able to customize your peels to address your most pressing concerns.

### Providers Recommendation:

**Restylane Kysse™**— The first lip filler designed with XpresHAn Technology™ for flexible movement, texture and natural-looking volume proven to last!
